

## Капитальный ремонт двигателей

Ремонт двигателей (бензин, дизель)

Ремонт МКПП

т. 8-919-173-38-01 (Михаил)

AvizInfo.ru

possible injector services  
Direct injection systems in the  
cylinder head  
Direct injection permits reduced energy  
consumption

Advantages on the  
larger engine good engine  
fuel efficiency, increased torque  
output, and high peak per  
formance

A diesel engine concept with the working term "Diesel" Diesel engine assemblies are working on a gasoline engine that  
would combine the advantages of conventional gasoline (GDI) and diesel engines. The new development should bring add  
performance with significantly reduced fuel consumption and correspondingly low carbon dioxide emissions
